## The Client

Contract Design Northern are one of the largest Engineering Service companies in the UK and carry out sub-contract detailed engineering and design projects for major engineering companies all over the world including Heerema, Rosenberg, Cleveland Bridge, Aker Solutions, Repsol and Engie to name a few.

## The Project

The Structural Drawing Office worked with Contract Design Northern management to develop a customised and fit for purpose Tekla Structures solution for their clients.

Due to the large and complex nature of the projects Contract Design Northern undertake, new technology such as cloud hosted models and time saving tools such as customised modelling applications were at the core of the project. Together with intensive best practice training of designers, Contract Design Northern can carry out large Tekla Structures Projects from their Newcastle HQ as well as continuing to supply entire Tekla Structures design teams to their client's project offices across the globe.

## The Client Said

Peter Douglass, Managing Director for Contract Design Northern; *"By engaging with Ciaran we have developed an industry leading solution for Tekla Structures projects. Our clients in the offshore wind, petrochemical, oil and gas, nuclear and similar industries are now able to rely on Contract Design Northern for quality work carried out here in the UK, and will remain at the forefront of Tekla Structures technology due to our long term partnership with The Structural Drawing Office ."*

Established in 1987, Contract Design Northern is the third largest engineering service company of its kind in the UK providing international and multi-disciplined design, draughting, procurement, project and construction management consultancy expertise.
